Research area

Number theory

Preprints and papers

(with Richard Pink) Local Kummer theory for Drinfeld modules. [arXiv:2402.08254](#).

Local monodromy of Drinfeld modules. *Compositio Mathematica* **160** (2024), no. 11, 2656–2683.

Tate modules of isocrystals and good reduction of Drinfeld modules. *Algebra & Number Theory* **15** (2021), no. 4, 909–970.

Shtuka cohomology and special values of Goss L -functions. [arXiv:1808.00839](#). This is my PhD thesis with minor updates.

Tannakian properties of unit Frobenius-modules. *Journal of Number Theory* **166** (2016), 19–30.

Employment

2025 ICMAT, post-doc in the group of Daniel Macias.

2021 EPFL, SNSF Ambizione post-doc in the group of Maryna Viazovska.

2018 ETH Zürich, post-doc in the group of Richard Pink.

Education

- 2018 PhD, Universiteit Leiden, Università degli Studi di Milano
ALGANT program

Advisors: Lenny Taelman (Amsterdam), Fabrizio Andreatta (Milano) and Bas Edixhoven (Leiden).
Thesis: Shtuka cohomology and special values of Goss L -functions
<https://hdl.handle.net/1887/61145>
- 2013 MSc, Universiteit Leiden (1st year), Université Paris-Sud (2nd year)
ALGANT program

Advisor: François Charles
Thesis: Zero-cycles on surfaces
<http://algant.eu/documents/theses/mornev.pdf>
- 2011 MSc degree in "Mathematics. Computer Science", Ural Federal University

Grants

SNSF Ambizione grant, 2021 – 2025

ETH Zürich Postdoctoral Fellowship, 2019 – 2021

Leiden/Huygens Fellowship, 2013 – 2017
There are three such fellowships per year for the entire faculty of science.

ALGANT Doctoral Scholarship, 2013 – 2017

ALGANT Master Scholarship, 2011 – 2013

Lecture series

- 2020 Arithmetic of function fields
ICMAT, Universidad Autónoma de Madrid
- 2019 Shtuka cohomology and special values of Goss L -functions
Université Claude Bernard Lyon 1
- 2018 Arithmetic of shtukas
Arithmétique et géométrie des chtoucas
Université de Caen

Teaching

Riemann surfaces (MATH-410)

EPFL, Fall 2023 and Fall 2024, master course, lecturer.

Elliptic curves

ETH Zürich, Spring 2020, reading course for master students, lecturer.

p -adic Galois representations

ETH Zürich, Fall 2019, graduate course, lecturer.

Étale cohomology seminar

ETH Zürich, 2018 – 2019, co-organized with Richard Pink.

<https://max-mornev.github.io/etale.html>

Galois Representations and Automorphic Forms

Universiteit van Amsterdam, Fall 2016, national graduate level course, teaching assistant.

Organizational experience

- 2011 School on algebra and algebraic geometry (Yekaterinburg)

<https://marina-p.info/school-on-algebra-and-algebraic-geometry>

In 2015 Pavel Solomatin and I organized a research seminar on Drinfeld modules: <https://max-mornev.github.io/dm.html>

Service

Reviewed a grant application, a book and numerous papers.

Talks

- 2025 Local monodromy of A -motives

First Function Field Days

ICMAT

- 2024 Local Kummer theory for Drinfeld modules

ICMAT, Universidad Autónoma de Madrid

Local Kummer theory for Drinfeld modules

2nd AMS-UMI International Joint Meeting

Local Kummer theory for Drinfeld modules

Workshop “Alpbach 2024”

- 2022 Local monodromy of A -motives

Second joint congress of AMS–EMS–SMF

Université Grenoble Alpes

- 2021 An ∞ -adic criterion of good reduction for Drinfeld modules
Groups, arithmetic and algebraic geometry seminar
EPFL
- What is a shtuka?
Groups, arithmetic and algebraic geometry seminar
EPFL
- What is a shtuka?
Zürich Graduate Colloquium
ETH Zürich
- Local monodromy of Drinfeld modules
Universität Münster
- 2020 Local monodromy of Drinfeld modules
Number Theory Seminar
University of California San Diego
- Local monodromy of Drinfeld modules
AMS Fall Eastern Virtual Sectional Meeting
- Local monodromy of Drinfeld modules
Oberseminar Algebraische Geometrie
Universität Zürich
- Tate conjectures in function field arithmetic
Upstate New York Online Number Theory Colloquium
- 2019 An ∞ -adic criterion of good reduction for Drinfeld modules
Arithmetic of Function Fields and Diophantine Geometry
National Center for Theoretical Sciences, Taipei
- Shtuka cohomology and special values of Goss L -functions
AMS Spring Central and Western Joint Sectional Meeting
University of Hawai'i at Mānoa
- An ∞ -adic criterion of good reduction for Drinfeld modules
Hawai'i Number Theory Conference
University of Hawai'i at Mānoa
- 2018 Shtuka cohomology and special values of Goss L -functions
Seminar der Forschergruppe 'Symmetrie, Geometrie und Arithmetik'
Universität Heidelberg
- Regulator theory for elliptic shtukas
Arithmetic and algebraic geometry seminar
Universiteit van Amsterdam
- Formulas of Tamagawa type in positive characteristic

This Week's Discoveries (Faculty of Science colloquium)
Universiteit Leiden

- 2017 Shtuka cohomology and special values of Goss L -functions
Conference "Arithmetic of Function Fields"
Universität Münster

Shtuka cohomology and special values of Goss L -functions
Intercity number theory seminar
Universiteit van Amsterdam

- 2016 Shtuka cohomology and special values of Drinfeld modules
Seminar Zahlentheorie
ETH Zürich

- 2015 Tannakian properties of Frobenius-invariant sheaves
Workshop on function fields, zeta functions and Drinfeld modular forms
Imperial College London
